

Executive MBA in Healthcare Management

THE UNIVERSITY OF
BUCKINGHAM

THE INSTITUTE OF
LEADERSHIP
& MANAGEMENT

Executive MBA in Healthcare Management

Delivered over 18 months, this online, part-time, distance learning Executive MBA in Healthcare Management programme is specially designed for mid-level managers, executives and business leaders who want to stay on top of their game and stand out from their peers. If you want to improve your knowledge, open the door to new opportunities and maximise your earning potential, this is the course for you.

Our Online Executive MBA in Healthcare Management offers emerging/aspiring executives and senior managers a scheme of study that develops their academic, critical, reflective and practical understanding of managing complex organisations in a rapidly evolving contemporary global business environment. Subsequently, the programme aims to develop students' capacity to apply the knowledge and skills acquired to help them develop their career and take up successful managerial and leadership positions in the future.

Why Study an Executive MBA with us?

Our Executive MBA Course is subject to university validation and accredited by the Institute of Leadership and Management.

Our tutors and programme leaders are not only academics but also business and industry leaders in their fields and on the cutting edge of new developments in leadership, management and business.

Our flexible approach to learning ensures that you do not have to compromise your personal or professional commitments to access top quality postgraduate education.

You can undertake your studies part-time and our Executive MBA programmes can be completed in just 18 months.

Our courses are intensive, but you are provided with the flexibility to ensure that you can fit your studies around your lifestyle and continue working while you study.

You will learn in a multidisciplinary group of professionals from around the world with a variety of different backgrounds. This will give you insights and knowledge across industries, allowing for a learning experience that applies to real-world scenarios and context.

Executive MBA in Healthcare Management

Course Modules

The eMBA in Healthcare Management provides students with knowledge and understanding of management theory and practice, theoretical and applied perspective, and the ability to apply knowledge and skills in healthcare management. The online Executive MBA lasts 18 months and is a part-time distance learning course. It consists of 6 modules of 20 credits each over the first 12 months, each 6 weeks in duration followed by a 60 credit capstone project which will take a further 6 months to complete.

Module 1 - Marketing Management

Aim of the module:

- The module aims to introduce students to the principles and practices of marketing. Primarily it seeks to develop students' capabilities to effectively direct and manage an organisation's marketing function.

Synopsis of module content:

- Understanding marketing management and developing marketing strategies and plans
- Creating customer value, satisfaction, and loyalty
- Analysing consumer and business markets and Identifying market segments and targets
- Creating brand equity and crafting the brand positioning
- Marketing through the life cycle

On completion of this module, students will be able to:

1. Compare and contrast a range of change management theories and models in the context of a healthcare setting.
2. Critically evaluate and recommend suitable management actions / strategies and systems for the development and introduction of innovation processes, functions and disruptions in healthcare delivery.

Final Assessment - Capstone Project

Aim of the module:

- The aim of this module is to consolidate learning acquired during their eMBA into a single capstone project.
- Students will carry out an independent study on a management topic of their choice.
- The project will be focused on an area of interest within either their own workplace setting or a company of their choosing and compile a comprehensive report.

Synopsis of module content:

- Recap the key learning outcomes of the module they have studied
- Evaluate suitable collection, analysis and interpretation of different types of data and evidence
- Determine effective / evidence-based decision making in organisations for business case development
- Develop a suitable executive management capstone project proposal
- Produce a capstone project report

On completion of this module, students will be able to:

1. Synthesise knowledge gained during executive MBA Studies and apply these in developing solutions to complex management issues and improving performance.
2. Develop conceptual understanding of business and management theory and constructs in a way that facilitates systematic search, justification and evaluation of competing courses of action.
3. Critically evaluate information and data (evidence) to inform real life management decisions within the workplace.

Teaching Methods

Our courses are conducted entirely online through distance learning. However, you will receive guidance throughout with tutor-stimulated academic discussions, which are based on real life case scenarios. These usually occur within groups of 10-15 students, allowing you to clearly communicate with both your tutor and fellow students.

You will participate in a combination of group and individual activities, which are recorded in a reflective journal. This innovative teaching method enables you to envisage the translation of your studies into your everyday work and practice.

Our dedicated Student Support Team are also available to help with any problems you may face. From navigating our online platform to advising you on deadlines, our team can assist with any questions or challenges you may have along the way.

Study Skills Week

Once you have secured your place on the course, you will be invited to an Study Skills Week webinar. This will give you the opportunity to participate in study skills workshops on Harvard referencing, scientific and reflective writings, and levels of evidence in preparation for your studies. It is not compulsory for you to attend our Induction Day but it is recommended, as it'll provide you with a sturdy introduction to the course.

Executive MBA in Healthcare Management

Entry Requirements

Applicants will be expected to meet the below criteria:

- Hold a minimum of a 2.1 undergraduate degree
- Have at least 3 years management experience
- Have Basic IT skills
- Able to communicate their idea's effectively
- Have English Language proficiency - IELTS: 6.5 with and a minimum of 6.0 for each band
